ABOUT CROMPTON

We are one of the leading consumer goods companies in India, with a brand legacy of over 85 years. Since February 2016, we have operated as an independent company under professional management, with two business segments: Lighting and Electrical Consumer Durables. We market our products under the "Crompton" brand name in India and select export markets.

National Energy Conservation Award - 2023

Receiving the National Energy Conservation Award 2023 from Hon'ble President Smt. Droupadi Murmu.

Crompton was awarded the National Energy Conservation Award 2023 in the category of Most Energy Efficient Appliance for its storage water heater. This recognition highlights Crompton's ongoing commitment to developing energy-saving products, building on past achievements in categories such as fans and lights. Established in 1991, the National Energy Conservation Awards honor significant contributions to energy efficiency and sustainable innovation.

Our commitment to innovation and sustainable energy solutions drives us forward, and this recognition only strengthens our passion to build a greener future!

AWARDS & RECOGNITION

2025 Featured in the S&P Global Sustainability Yearbook 2025

Ranked among the top three companies globally in the household consumer durables industry, in the S&P Global Corporate Sustainability Assessment 2024. For the first time, Crompton has been featured in the S&P Global Sustainability Yearbook 2025, placing it among the top sustainability performers.

2025 GreenPro Ecolabel for B2B Lighting Solutions

Crompton has been honoured with the prestigious GreenPro Ecolabel Certification for its complete portfolio of B2B lighting solutions, spanning Indoor, Outdoor, and Solar segments, making it the first company in India to achieve this recognition in the lighting industry.

2024 9th OHSSAI Annual HSE Excellence & ESG Global Awards

Kundaim, Goa and Ahilyanagar, Maharashtra plants won Gold in safety category at the 9th OHSSAI Annual HSE Excellence & ESG Global Awards 2024.

2024 ESG Global Awards 2024

Goa - Bethora Plant won the ESG Global Awards 2024 in safety category

LIGHTING MADE EASY

1: Brightness = Lumens, Not Watts

Back in the day, brightness was all about watts. But with modern, energy-efficient LEDs, it's lumens that matter most.

Traditional Bulb	LED Equivalent	Brightness (Lumens)
60W	9W	~900 Lumens
100W	15W	~1500 Lumens

Lumens = How bright the light is
Watts = How much energy it uses

Choose lights based on lumens for the right brightness and enjoy energy savings too.

2: What is CRI - Colour Rendering Index

CRI measures how accurately a light shows natural colours. High CRI (80 and above) means:

- Colours look richer and more vibrant
- Ideal for homes, especially in kitchens, dressing areas, and living rooms
- Textures, clothes, food, and décor look more realistic

Crompton Lights are designed with high CRI to bring out true-to-life colours and enhance the way your home looks and feels.

3: Understanding CCT - Correlated Colour Temperature

CCT (Correlated Colour Temperature) affects the mood and feel of a room. It is measured in Kelvin (K) and indicates the colour tone of the light.

CCT	Tone	Mood/Usage
3000K	Warm White	Cozy, calm - great for bedrooms, living rooms
4000K	Neutral White	Balanced - ideal for kitchens, bathrooms
6500K	Cool Daylight	Fresh, bright - perfect for reading corners, study, workspaces

With Crompton, you can choose the perfect tone for each space.

LIGHT THAT CARES FOR YOU

4: Why Good Lighting Matters For Your Family

The right lighting is more than just brightness. It impacts your eyes, focus, comfort, and wellbeing.

- Helps children study better with reduced eye strain
- Enhances focus in work-from-home areas
- Creates a warm, welcoming ambience
- Supports relaxation and better sleep (when warm tones are used in evenings)

Every Crompton LED is designed to make your space feel right – functionally and emotionally.

5: Built-in Surge Protection: Safety You Don't See, But Always Have

Fluctuating voltage is common in many homes. That's why Crompton LEDs come with in-built surge protection – designed for Indian conditions

- Protects against voltage spikes
- Increases product life
- Offers worry-free performance

With Crompton, safety and performance come built-in.

6: Tips to Choose The Right Light

Tips to choose the right light

- For larger rooms, go for higher lumens
- Match CCT to the purpose of the room
- Use CRI 80+ lights in areas where colour accuracy matters
- Ensure lights have surge protection for longevity
- Consider energy-efficient lights to save on electricity

Lighting is personal - Crompton helps you light up every moment, just the way you want it.

Crompton Lighting. Made to Perform, Built to Last.

From brightness and safety to comfort and beauty – Crompton LEDs are made to meet every need in your home.

DESIGN YOUR GLOW

Step 1: As per the room size and type, identify the required lumen from the below tables:

LIVING ROOM

Room Area (In Sq. Ft.)	Lumen Required
96	2000
108	2250
120	2500
132	2750

BED ROOM

Room Area (In Sq. Ft.)	Lumen Required
80	1600
90	1800
100	2000
110	2200

WORK/STUDY

Room Area (In Sq. Ft.)	Lumen Required
80	1600
90	1800
100	2000
110	2200

KITCHEN

Room Area (In Sq. Ft.)	Lumen Required
64	1600
72	1800
80	2000
88	2200

WASHROOM

Room Area (In Sq. Ft.)	Lumen Required
48	800
54	900
60	1000
66	1100

AISLE

Room Area (In Sq. Ft.)	Lumen Required
48	800
54	900
60	1000
66	1100

DESIGN YOUR GLOW

Step 2: Understand the layers of lighting possible in a room:

New Age Functional Lights
(COB, Panels, Battens, LED Lamps)

The purpose of this layer is to provide an even light across the room.

Spot or Focus Light
(Downlighters, Table Lamps, Panels)

Task lighting provides focused light for specific tasks in a room that may already have some functional light.

Mood Lighting
(Smart, Customisable Lighting Range - Dimmable, Tuneable, Multi-functional. Available in Bulbs, Battens, and Panels)

The intensity and colour of the light, can command the mood of the room, for this we have mood lights.

Disclaimer: The above information is for reference only and is based on typical room sizes found in Indian households, assuming an approximate ceiling height of 10 feet. To know more about Crompton Lights, scan the QR code.

A man and a woman are sitting on a grey sofa inside a portable room with a bright yellow-orange interior. The man is on the left, wearing a light-colored shirt and pants, holding a bowl of popcorn. The woman is on the right, wearing a light-colored top and pants, also holding a bowl of popcorn. Above them is a glowing, oval-shaped light fixture. The room is set up on a rocky, grassy hillside with a vast mountain range in the background under a cloudy sky. The scene is illuminated by the warm light of the room and the natural light from the landscape.

Work. Watch. Unwind. Light That Moves With You.

TRIO LIGHTING

CROMPTON REDEFINES HOME LIGHTING EXPERIENCES WITH THE LAUNCH OF ITS TRIO RANGE OF LIGHTS

Crompton's new Trio Range brings together a Ceiling Light, a Batten, and a Lamp – each offering three distinct lighting experiences.

Designed to suit both decorative and professional needs, the Trio Range combines versatile functionality with refined style. With its three adaptable modes – Work, Theatre, and Party, this premium lighting solution transforms your space to match any mood or occasion.

SURFACE PANEL RING

Applications:

Home

Office

Mall

Retail Shop

Perfect fit to install Crompton Star Slim / Star Lord Panels

These panel rings can be used for Star Slim / Star Lord Recessed LED Panels

No False Ceiling Required

Surface Panel Rings can be installed on existing ceiling or can be mounted on wall

SURFACE PANEL RING COMPATIBLE PRODUCTS

Convert Recessed Panels into Surface-Mounted Lights

Crompton's Surface Panel Ring is a simple yet smart accessory that lets you install LED panel lights without the need for a false ceiling. Designed for flexibility and ease of use, it allows recessed LED panels to be mounted directly onto solid ceilings, making it perfect for homes, offices, or spaces where false ceilings aren't an option.

Convert with Ease - Adapt your existing recessed panel light into a surface-mounted fixture in minutes.

No False Ceiling Required - Mount directly onto regular ceilings.

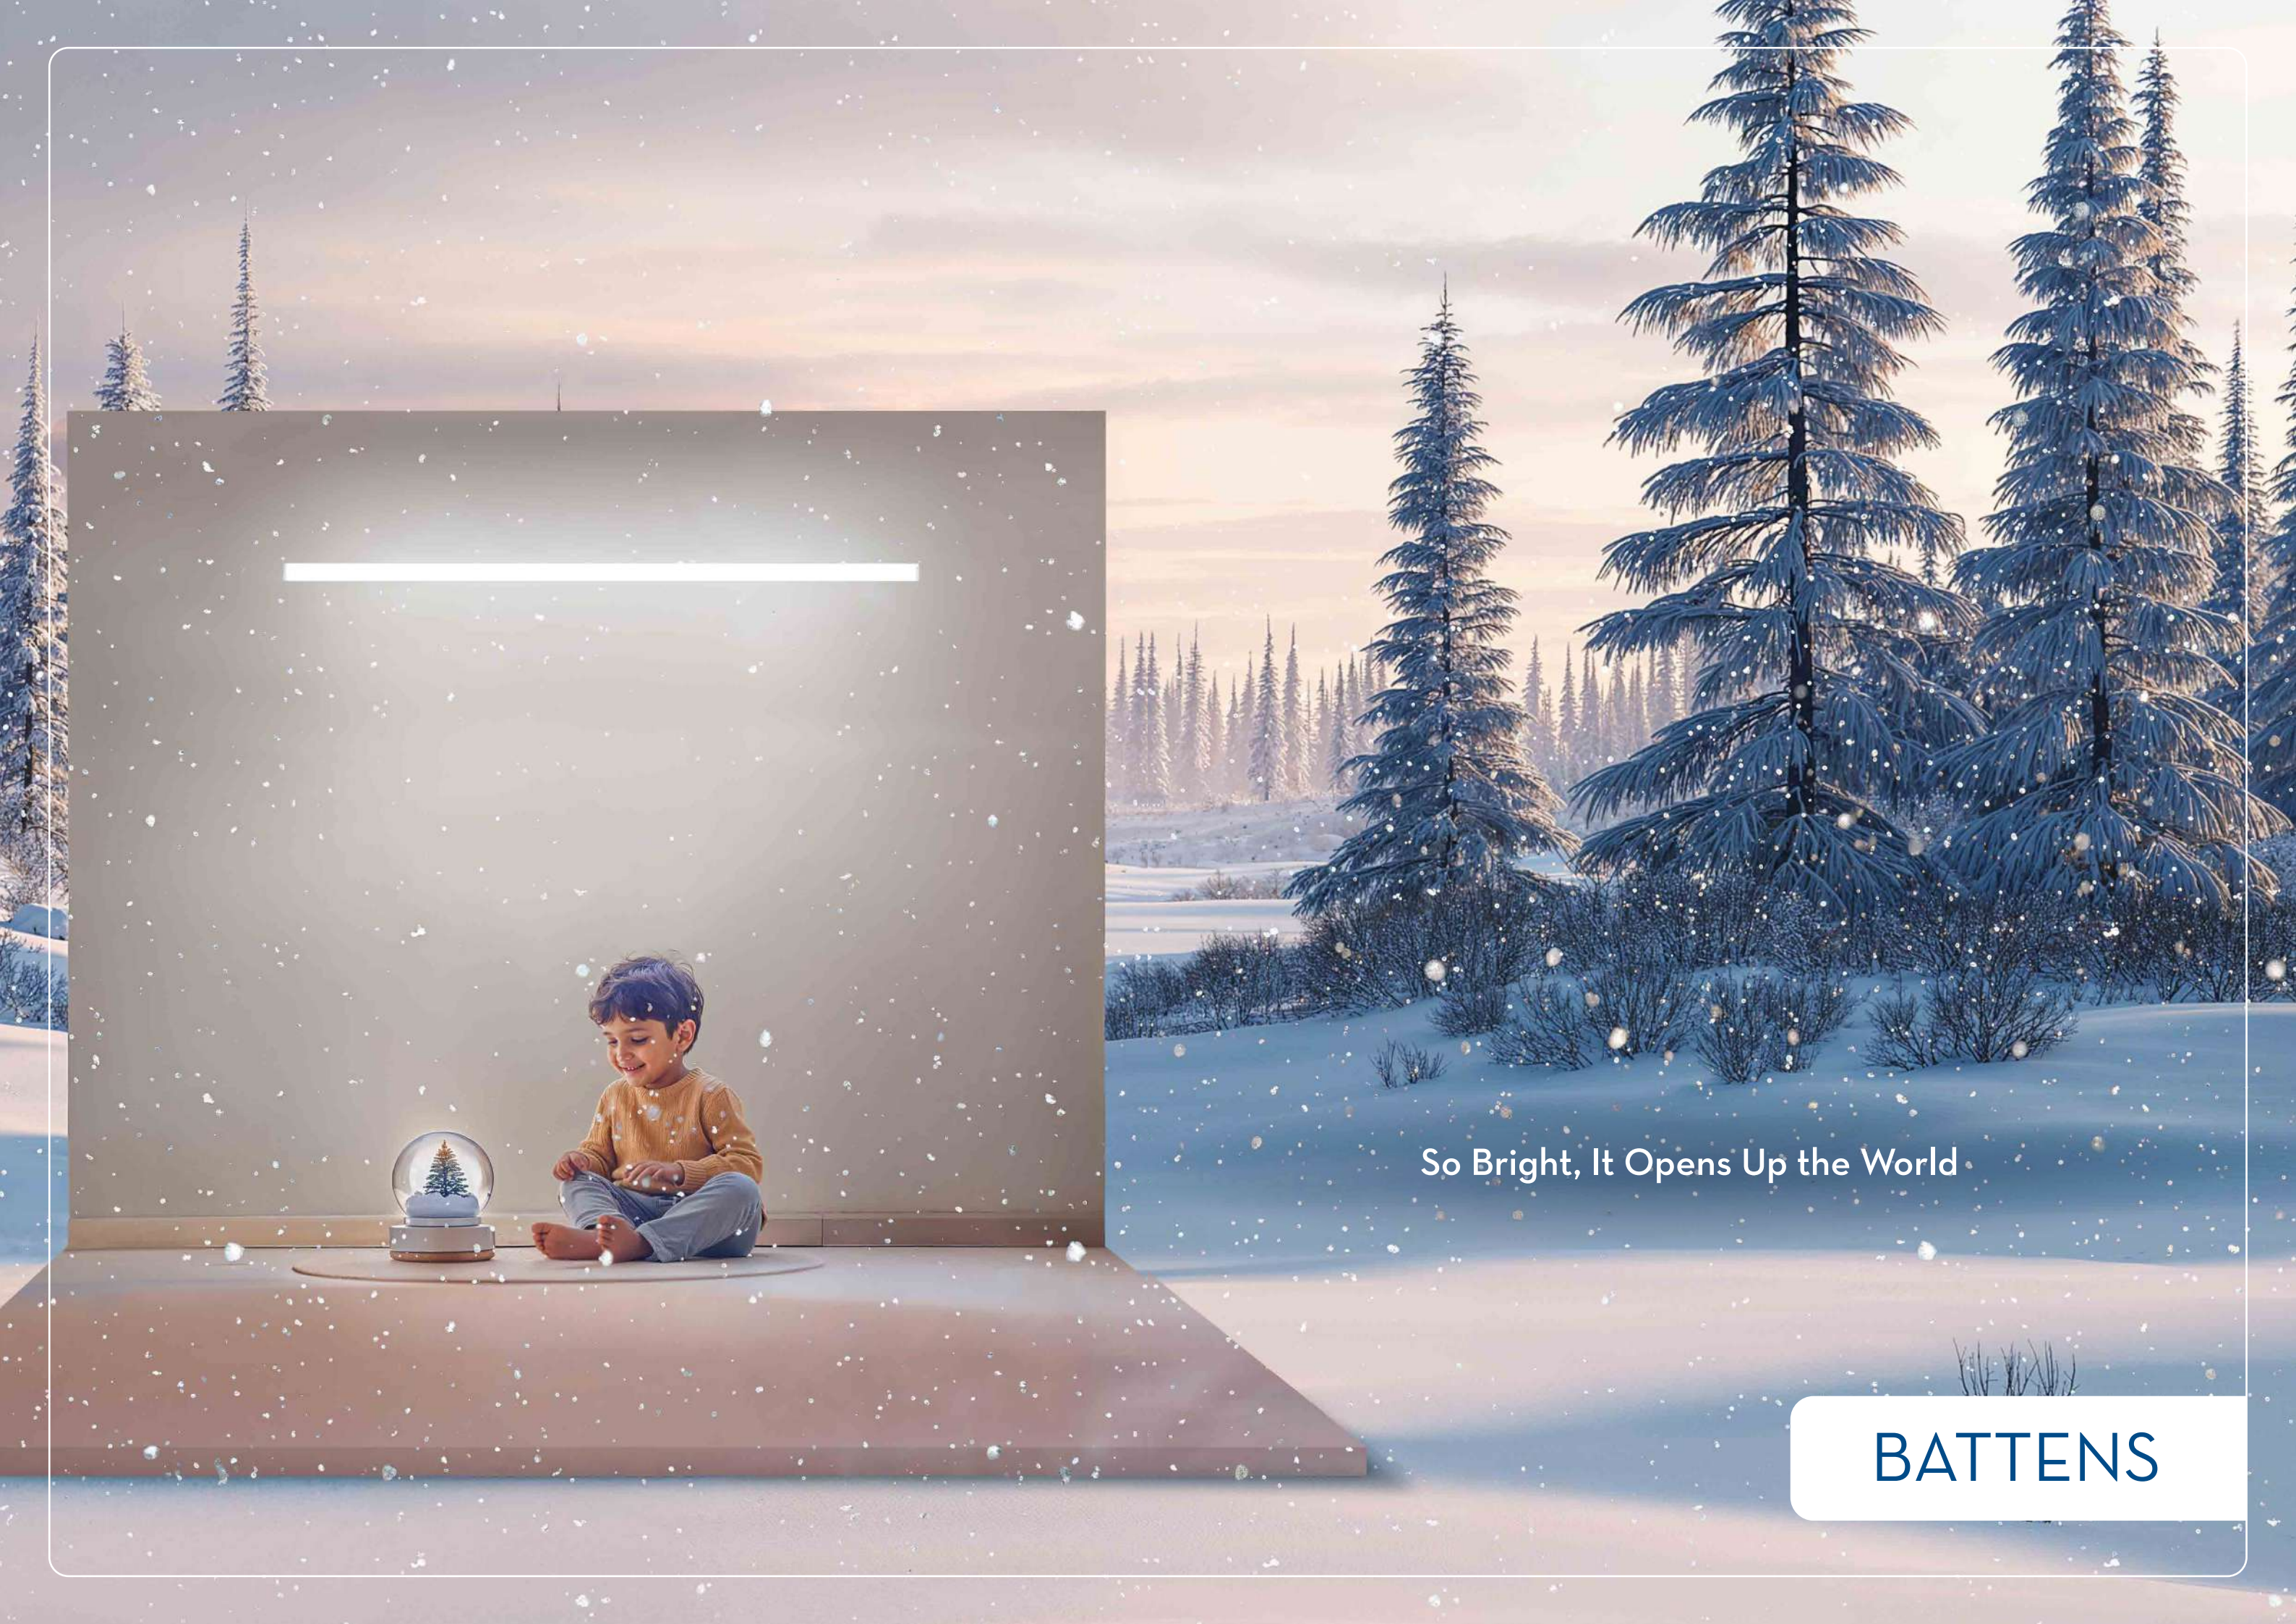

Durable Build - Crafted from high-quality materials for long-lasting performance.

Neat & Sleek Look - Conceals wiring for a clean, professional finish.

A surreal night scene featuring a man with a beard sitting on a wooden bench, reading a book. He is positioned in front of a wall covered in ivy. A bright street lamp above him casts a warm, golden glow, creating a pool of light on the ground and illuminating the ivy. The background is a vast, dark landscape with rolling hills under a starry night sky, where the Milky Way galaxy is clearly visible, arching across the upper half of the frame. The overall mood is peaceful and contemplative.
